Achievements	
This week we…	**AOCB**
- enjoyed making Egyptian bread again, this time we split into 5 groups so that we could make more bread and everyone could be more involved. We each took a turn at adding the ingredients and kneading the dough. We attempted to make the bread less doughy by kneading it for longer and using slightly less water…it was still a little on the heavy side but most of us liked it. We even had enough this time to share it with the teachers. - wrapped up our topic on the Ancient Egyptians by creating mind maps in groups about everything we have learnt this term and then shared it with the class. - enjoyed reading to each other and discussing our thoughts on our books. Some of the Primary 2's read a non fiction book which they then used along with the Chromebooks to create their own information books. - wrote a recount on Egyptian bread making. We came up with the order in which we did things; created actions for each step; practised the actions throughout the week; created story maps in small groups; collectively came up with a group recount using our best ideas; carried out the activity of making bread and then wrote our recount. We did an excellent job of getting the steps in the correct order and using different sentence openers. Some of us did a great job of adding in more detail to the steps we came up with together. - consolidated what we learnt in numeracy this term. In groups we came up with a game to teach someone about an area we have learnt over the last term. This ranged from games about odd/even numbers to teaching someone how to play battleships and understand grid references. - thoroughly enjoyed going out to the woods with nursery- thai is great for our problem solving and cooperation skills. This week Mrs Clark brought some Spring baskets that we could use to collect Spring items. Some of us collected dinosaur eggs; some built bird's nest; some played hide and seek.	- Enjoy the holidays! - Back to school- Monday 17th April

Date: 31.03.23   Class: Primary1/2

Question stems for discussion at home:

What was the most enjoyable part of your week?	Tell me one thing that you learnt this week…	What did you find tricky this week?	What did you do in class this week that you want to try again? Why?
