

## Achievements

**During this week's reflection, pupils shared what they have enjoyed this week. Here is a summary of their comments:**

- Music because it was fun practising our song for the Leavers Assembly and we are getting better at.
- Outdoor learning because we enjoyed tracking down our classmates and creating a performance for Strictly Come Lekking.
- I enjoyed the Fairtrade breakfast because it was interesting doing the activities and the brownies were delicious.
- Running Wild is getting exciting and mysterious.
- Playing with the microbits because it was entertaining programming commands onto it.
- P.E with Mrs Chisholm because it was exciting to participate in the athletics stations. We also enjoyed doing the relay races with Mrs Fitter.
- Studying bias and writing fictional formal letters.

### This week ...

- We continued to look at angles this week and measured a variety of angles within a +/- one degree accuracy. Pupils enjoyed the challenge.
- In numeracy we continue with time. The Ospreys and Red squirrels have been tackling elapsed time as well as how to read a programme of events accurately. The Wild cats have been looking at calculating speed, time and distance problems.
- The Green Group have met two strange characters in their book, 'Time Detectors.' We believe them to be Palmer's friends and we do not trust them. Dr Pennyfather is also questioning Tom about the medallions, which is suspicious. The Purple Group have been learning about Martine and Ben's survival techniques on the island. Unfortunately, Claudius and his crew are not co-operating, which is infuriating. Amazingly, the dolphins are interacting more confidently with Ben and Martine.
- Running Wild has kept us on a rollercoaster of emotions. Oona has returned, with two orangutans. However, danger is looming! We look forward to continuing with our book next week.
- Music was fantastic this week. I have seen such an improvement in just one week! It was great to see so many pupils playing their own instruments. The song is sounding amazing and I can't wait to hear how it progresses next week.
- In French this week, we learnt how to say which foods we like, love, do not like and hate. After watching and identifying some French vocabulary on a short video, pupils practised asking one another in class.
- We learnt about bias this week, in preparation for our writing on Thursday. Pupils had a fictional scenario to discuss and then we held a debate, one side were bias for and the other were bias against. We used our persuasive powers to write a fictional letter to the council regarding the proposal (fictional) of a new supermarket in Farr.
- We learnt about the importance of personal hygiene this week in health, particularly when we start puberty. As expected, we had a super discussion and pupils were able to provide solutions to scenarios provided.
- We had our Fairtrade breakfast on Friday morning, which was a lovely treat. The Red Room presented fabulously and the activities were motivational. The brownies were also a lovely treat!

### AOCB

- P.E will be on **Mondays and Wednesdays**

Please can pupils come to school dressed in their P.E gear on a Monday.

- Outdoor learning will be **every Thursday** until the end of term.

**Please ensure your child comes to school dressed appropriately for outdoor activities.**

- RHET trip on **Thursday 1<sup>st</sup> June**. Please could pupils come to school dressed for a day outdoors. They will require a packed lunch and drink refreshments.

Please can I remind pupils to bring their water bottles to school daily. Bottles can be refilled throughout the day.

### Question stems for discussion at home:

What was the most enjoyable part of your week?	Tell me one thing that you learnt this week...	What did you find tricky this week?	What did you do in class this week that you want to try again? Why?
